# INFINITY RAILING

*available for Residential & Non-Residential*

***Enjoy an uninterrupted view with CrystaLite's new Infinity Railing system.***

Glass guardrails are available utilizing our 2 ½" (9006) post and/or our new 1/2" Slim Post with either 3/8" tempered glass (standard) or 7/16" fully tempered lam.

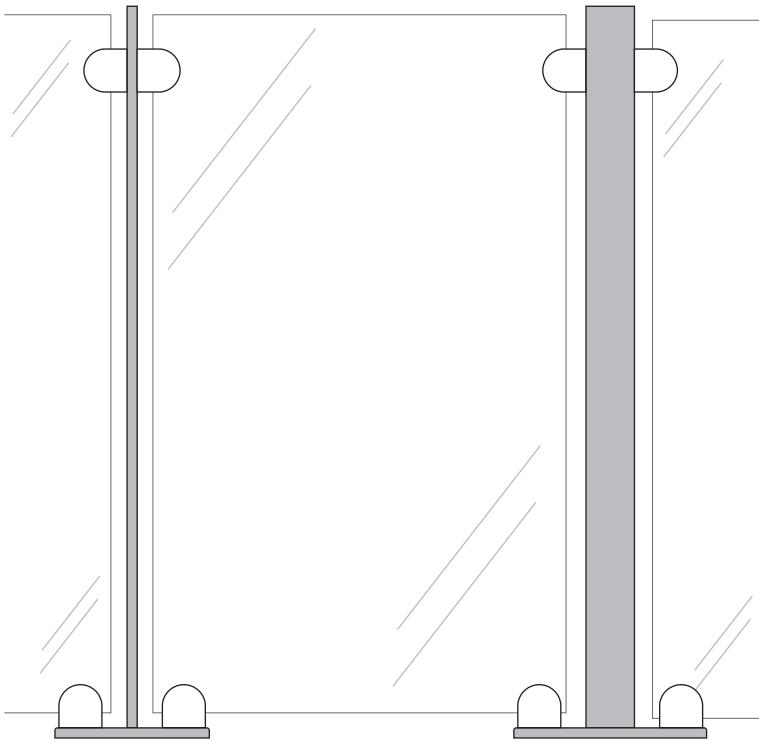
## Code Compliance

Glass guardrail systems have been tested by a certified independent test laboratory to meet and exceed IRC, IBC, and ORSC applicable code requirements. Railing system performance has been certified by an independent structural engineer. Test reports and engineering analysis is available upon request.

All final decisions of code compliance are at the discretion of the local building authority. Always ensure approval by the local authority prior to installation.

## System Options

- 3/8" tempered glass (standard).
- 7/16" Fully Tempered Lam. (req. for non-residential)
- Available with either 9006 and/or Slim Post.
- Glass Clips are available in white, brushed nickel, chrome, satin chrome, bronze, and black.
- Available in either 36" or 42" heights.



Slim Post 9006
