

SKYLITES • SUNROOMS • RAILINGS

CERTIFIED SNOW-LOAD / HIGH-LOAD for Unit Skylights (single lite)

Please provide the following information on your project. With this information we can provide you with certification documentation to validate the snow-load / high-load as required.

- Limited to 5842 and 3962 single lite skylight frames that are 4ft x 6ft (5074) or smaller in both directions; and 5830 single lite skylight frames that are 4ft x 4ft (5050) or smaller in both directions.
- Available for select skylight sizes for loads up to 560 lbs.
- Certification to the NAFS Standard [AAMA/WDMA/CSA/101/I.S.2/A440] will be provided with each skylight. Commonly referred to as 'AAMA Testing.'

Glazing Options

Crystalite will determine the glazing make-up of the IG unit based on size of glass lite.
